

The Flow Europe GmbH in Bretten is the European headquarters of the American Flow International Corporation, the world leader in the development and manufacture of industrial cutting technology based on ultrahigh-pressure and abrasive waterjet systems. Flow offers pioneering techniques for efficient and creative treatment of the most varying materials in almost all industrial branches. Every day, more than 800 employees take care of the concerns of our customers as well as landmark product innovations. We manage all our business in Europe, Middle East, Africa and India out of our European headquarters. We continue to grow and plan to fill the following position in Bretten:

# Accounting Manager

## Responsibilities:

- Responsible for the monthly and quarterly close of the financial statements including the European consolidation.
- Complete the monthly operating book for the division and coordinate the preparation of other financial information required by corporate accounting.
- Complete monthly analysis of division performance versus plan and prior periods.
- Participate in the preparation of the annual division budget and monthly / quarterly forecasts.
- Preparation of the annual regulatory financial statements.
- Prepare monthly reconciliations of selected balance sheet accounts.
- Exercise high level of care to ensure all documentation complies with stated internal controls for SOX 404.
- Participate in special projects as required.
- Supervision of a small team.

## Qualifications:

- University degree in Accounting or Finance.
- Certified Public Accountant.
- Minimum eight (8) years of general accounting experience, including at least three (3) of experience with at big four or large regional public accounting firm. Experience with a manufacturing company is a plus.
- Solid understanding of HGB, IFRS (International Financial Reporting Standards) and US-GAAP and finance concepts.
- High level of analytical ability.
- Strong communication skills including English and German.
- Dedicated. Work independently.

Are you looking for a challenging position at the world leader of a fascinating technology with outstanding potential for growth? Join the growth! We will promote your career through modern personnel development. Take advantage of the dynamics of an expanding European company and the innovative strength of an American corporation. An adequate remuneration goes without saying.
