

INNOVATION | EXPERTISE | COMMITMENT

We are an internationally operating, American company and the world leader in the development and manufacture of industrial cutting technology based on ultrahigh pressure and abrasive waterjet systems. We offer pioneering techniques for efficient treatment of the most varying materials in almost all industrial branches. The Flow Europe GmbH in Bretten is our European headquarters. We continue to grow and plan to fill the following position:

Accounting Manager – Europe (m/f)

Responsibilities:

- Close of monthly and quarterly financial statements.
- Consolidation of the European subsidiaries.
- Responsible for regular reporting to headquarters, e.g. monthly division financials.
- Analysis of the European division's performance.
- Participate in the preparation of the annual division budget and monthly / quarterly forecasts.
- Preparation of the annual regulatory financial statements.
- Prepare/review monthly reconciliations.
- Coordinate statutory audits, actively participate in internal audits (e.g. SOX).
- Projects as required, e.g. introduction of new ERP system, expansion to new markets, acquisitions.

Qualifications:

- Minimum five years of general accounting experience.
- Comprehensive practical experience with consolidating several European subsidiaries.
- Closing annual regulatory financial statements in HGB without guidance, in IFRS and / or US-GAAP with little guidance.
- University degree in Accounting or Finance. Relevant professional training is a plus, e.g. International Certified Accounting Specialist, CPA.
- Experience with a manufacturing company, corporate reporting structures abroad, preparing annual budgets, financial analysis, internal control (e.g. SOX) is highly desired.
- Experience with an accounting firm is a plus but not mandatory.
- Willing to embrace change and drive continuous improvement.
- Excellent communication skills, including English. Team spirit.
